**Advanced Marriage Trainers, Dr. Derrick & Mrs. Sheila Campbell,
unveil the Luveuphoria Phenomenon.**

January 3, 2016 - (Cherry Hill, NJ) - The Advanced Marriage Trainers, leaders in promoting healthy marriages, today unveiled its Luveuphoria Phenomenon to help eliminate one of the major causes of divorce.

The Luveuphoria Phenomenon has roots in Newton's Law of Cooling. Newton's Law of Cooling states that the rate of change of the temperature of an object is proportional to the difference between its own temperature and the ambient temperature (i.e. the temperature of its surroundings).

The Luveuphoria Phenomenon is consistent with Newton's Law of Cooling. It states that the rate of affection in a marriage is proportional to the number of non-sexual intimacy encounters and the number of days that a person is in the presence of their spouse.

One of the major signs of an unhealthy marriage is the lack of non-sexual intimacy. Non-sexual intimacy can lead to a sexless marriage. People who are involved in a sex-less marriage are more likely to consider divorce and are more likely to exist in an unhappy marriage. Non-sexual intimacy is a significant contributor to long-term marital bliss. This warm, positive, skin-to-skin contact releases the same bonding chemicals in your brain as sex.

The remedy to this marriage problem is easy. Use the Luveuphoria Formula and the Luveuphoria Scale to monitor the frequency of non-sexual intimacy in your marriage. Adding non-sexual intimacy to your marriage is a low-pressure way of maintaining a healthy marriage. Regular non-sexual intimacy can make you both more receptive to sensual experiences and it will make it easier to transition into more frequent sexual encounters.

Luveuphoria Formula

$$L_F = [(\text{Log}_{10} (\text{ns}/\text{nd})) \cdot 10] - 1$$

L_F = Luveuphoria Factor
ns = number of non-sexual touches
nd = number of days

Luveuphoria Scale

Luveuphoria Numerical Scale	
L_F	Affection Range
0	Freezing
1 - 2	Cold
3 - 5	Warm
6 - 7	Hot
8 - 10	Extremely Hot
11 +	Explosive
