Tenth Street Baptist Church Washington, DC

Facilitators:

Dr. Derrick & Mrs. Campbell

About the Marriage Conference

Day1:

The Promised Land - God has made and delivered many promises to His people. Becoming familiar with those promises will give the believer the power to overcome any of life's challenges. During this session we discuss the promises that are specific for men and women.

Where is the Promised Land? - Many believers are not attaining their Promised Land. Learn the mistakes that most couples make that inhibit them from reaching their Promised Land.
(Note: Morning session subject to change according to instructions given by The Holy Spirit)

Day 2:

Leading Your Marriage into the Promised Land - During the workshop participants receive training that result in the husband and wife learning to work together as a team to develop a family shared vision based on biblical principals and to appreciate the individual values that they each bring to the marriage. The participants also receive training on how the husband and wife will work together to develop family goals.
