Marriage Seminar

Many marital challenges are a result of couples not understanding how to integrate their values and varying life experiences into the marriage. In many instances when our values are challenged we exhibit behavior that is contradictory to a productive and blessed marriage. The Promised Land Workshop outlines a process that will show couples how to successfully overcome those differences in values by utilizing them to actually strengthen their marriage.

BENEFITS

- Husbands learn how to be the team leader
- Learn how to increase communication
- Learn how to take proactive steps that will enhance your marriage
- Learn the root cause of a dysfunctional marriage which can lead to divorce
- Learn how to become reflective in your thinking to enhance your marriage
- Learn how to build a foundation for a Godly marriage
- Learn how to develop a greater bond between the husband and wife

OVERVIEW OF WORKSHOP

During this workshop participants become aware of the characteristics of dysfunctional marriages. Couples are provided with a reflective tool that can reduce tension and disagreements between the husband and wife. Participants also receive training that results in the husband and wife working together as a team to develop a family shared vision and family goals based on biblical principals and the individual values that the husband and wife bring to the marriage.
